

Convert a family car to a mini camper van

chenguins.com

You will need + Instructions:

All measurements are in cm (LxBxH)

A 2 front legs for the bed:

Each leg consists of

- 2 wooden panel - 38.2 x 10 x 1.2 cm
- Cut a triangular out of one of the panels
- 1 wooden panel - 38.2 x 8 x 1.6
- Use wood glue to stick every part together.
- Tip: Please take note that feet should be a reflection of one another.

B 2 back legs for the bed:

Each leg consists of

- 2 wooden panel - 27.8 x 10 x 1.2 cm
- 1 wooden panel - 27.8 x 8 x 1.6
- Use wood glue to stick every part together.

C 2 small wooden blocks to support the sides of the folded rear seats:

Each block should be 15 x 10 x 8.2.

- In case, you have loose wooden panels. Use wood glue to stick every part together.

1 large wooden blocks to support the middle part of the folded rear seats:

Each block should be 20 x 20 x 8.2.

- In case, you have loose wooden panels. Use wood glue to stick every part together.

1 large wooden board as a bed:

This block consists of

- 1 large wooden panel - 100 x 100 x 1.6 (Tip: for a taller person, he/ she may need a longer panel)
- 2 long panels - 100 x 10 x 1.2
- 1 short panel - 80 x 10 x 1.2
- Use wood glue to stick the panels together.

Optional: Middle support

A basket and a wooden block with a total height of 29cm are required.

Instructions:

- Turn head rest(s) of the rear seats to the opposite side.
- Fold the rear seats.
- Put 3 blocks under the rear seats - 2 small blocks on the left and right sides of the seats (C), 1 large block between the single and double rear seats (D).
- Place 2 long wooden feet against the rear seats on each end, with the slanted sides on the top side (A).
- Place 2 short wooden feet at the sides of the end of the car boot (B). You may need several small wooden blocks to support the feet, so that we get a 90° angle.
- Since we do not have any special gears or furniture, we place a basket and some wooden blocks as height to support the bed (F).
- Gently, place the largest board (E) over the 4 feet and the basket connected to the rear seats. Below there are some space for our tent and all we need for the camping.
- In order to save storage space, we place 2 camping mats and sleeping bags on top of the bed. A foldable mattress will be an alternative.
